

PROGRAM DETAILS AND STRUCTURE

Key Program Facts

- ⌚ Duration: 27 months (3,984 training hours).
- 💻 Modality: 100% Virtual.
- 🎓 Degree: Technologist.

WHAT WILL YOU LEARN DURING YOUR TRAINING?

You will learn to solve problems using algorithms and develop skills with technologies such as Java, MySQL, and Visual Studio Code. The program is divided into fundamental phases:

- 1) Specification and Analysis: (432 hours) Understand and model client needs.
- 2) Software Construction: (1008 hours) Write the code and develop the solution under current methodologies.
- 3) Implementation: (144 hours) Deploy the software following quality standards.
- 4) Comprehensive Training: Intensive English (384 hours), effective communication, innovation, research, and healthy lifestyle habits.

WHY STUDY THIS PROGRAM?

This is a program focused on Information and Communication Technologies (ICT). It will train you in information management and the creation of IT solutions. You will learn the entire software life cycle: from gathering client requirements to modeling, construction, testing, and the final implementation of the product.

WHY CHOOSE ADSO?

- High Demand: The software development sector is considered world-class, and companies are urgently looking for qualified talent.
- Total Flexibility: Since it is 100% virtual, you can complete your training from anywhere in the country.

FREE TRAINING, HIGH LABOR DEMAND, AND 100% VIRTUAL.

Become a Software Analysis and Development Technologist (ADSO) with SENA

Join the thousands of Colombians betting on technological change!

YOUR PROFESSIONAL FUTURE

GRADUATE PROFILE

Upon graduation, you will be an IT expert capable of:

- Working as a computer application coder, analyst, or software designer.
- Mastering modeling tools, databases, and design patterns.
- Working in interdisciplinary teams applying best practices.
- Reading, understanding, and communicating in English (advanced level in technical reading and intermediate in speaking/listening) for international projects.

WHAT DO YOU NEED TO GET STARTED?

- ☒ MINIMUM AGE OF 16.
- ☒ HIGH SCHOOL DIPLOMA (TÍTULO DE BACHILLER).
- ☒ HAVING TAKEN THE ICFES (SABER 11) STATE EXAMS.
- ☒ BEING AFFILIATED WITH AN EPS (HEALTH INSURANCE SYSTEM).
- OBTENER LOS RESULTADOS EXACTOS QUE DESEE

Suggested Technical Requirements

For optimal performance in the virtual modality, it is highly recommended to have a computer with the following specifications:

- CORE I5 OR RYZEN 5 PROCESSOR (OR HIGHER).
- 8 GB OF RAM.
- 256 GB SOLID STATE DRIVE (SSD).
- STABLE INTERNET CONNECTION.

Don't miss this opportunity!
